

wilson **SuperX**TM

The new Wilson Super X V6 has been designed to be a flexible instantaneous hot water unit.

It can be installed with or without the supplied Expansion Valve making for a quick & easy installation. The choice is yours!

The Wilson Super X has no storage and is energy efficient as it only heats water as required and will continually heat as water passes over the elements. The Wilson Super X can be installed virtually anywhere and will supply enough hot water for small domestic dwellings, shops or factory amenities.

**Use with
or without
the supplied
Expansion
Valve**
